

COMPANY PROFILE

MESSAGE

Since our founding in Nigeria, Bonbridge Farms Ltd. has steadfastly committed to excellence and customer satisfaction. Over the years, we have grown from strength to strength, exploring various facets of agriculture, including poultry farming, aquaculture, pigging, and vegetable farming. With a management team boasting over 30 years of hands-on experience in International Trade, Freight, and Logistics, we have become a leading player in Nigeria's Agricultural Value chain. In response to the evolving landscape and driven by a dedication to sustainability, we have forged meaningful partnerships with smallholder farmers in rural areas.

Our mission goes beyond business growth; we aim to promote fair trade practices and good corporate governance and execute corporate social responsibility centered around Human Capital Development.

Our most recent milestones include securing \$1.5 million in capital investment as a joint venture agreement and successful Agri-produce exports to Europe and South-America, reflecting our growth and the growing demand for sustainably cultivated agricultural produce from Africa.

Our commitment extends to ecologically friendly farming practices, human capital development, and empowering out-growers from rural to mechanized systems. We appreciate the trust and support of our stakeholders and look forward to continuing this journey together, contributing to the sustainable growth and development of agriculture in Nigeria and beyond.
